## PLOTTER PAPER TO FIT YOUR INKJET PRINTER

Crown Van Gelder has selected a range of plotter papers for all types of water based inks, whether dye or pigment based, suitable for plan & diagram printing, exhibition, POS graphics and poster printing. All selected papers have a proven track record in this market segment. Our extensive experience in digital print and production of strictly specified papers guarantees excellent print quality: short drying time, fine lines and bright colours.

Take for instance Crown Letsgo Universal, now improved to an all-purpose smooth wide format inkjet paper and available up to 160 gsm. In order to convince yourself and your customers we have made test rolls available in 90 and 120 gsm, in length respectively 60 and 50 metres, on 51 mm (2") or 76 mm (3") core, in with 914 mm (36").

We produce and supply paper on jumbo reels in any width straight from our mill, ready for slitting into sheets or wide format paper rolls.
